On the occasion of its fiftieth anniversary, the Institute of Mathematical Statistics announces publication of *Statistical Science*, a new quarterly review journal in statistics and probability. *Statistical Science* will present the full range of contemporary statistical thought at a modest technical level accessible to the broad community of practitioners, teachers, researchers, and students in statistics and probability.

Interviews with
DAVID BLACKWELL & T. W. ANDERSON

- discussions of methodological and theoretical topics of current interest and importance,
- surveys of substantive research areas with promising statistical applications,
- evaluations of research papers in specific areas of statistics and probability,
- discussions of classic articles from the literature with commentary on their impact on contemporary thought and practice,
- comprehensive book reviews, and
- interviews with distinguished statisticians and probabilists.

Statistical Science joins the Institute's distinguished journals, *The Annals of Statistics* and *The Annals of Probability*, in February 1986 and is included as a privilege of membership. Nonmember subscriptions are available to individuals and organizations. All subscriptions to the *Annals* include a subscription to *Statistical Science* for 1986. For additional information on how to receive *Statistical Science*, please write to the IMS Business Office.
