

REPORT OF THE TREASURER

The Treasurer this year again presents to the membership an abridged statement of the Society's financial position, set up in a semi-informal narrative style. A copy of the complete Treasurer's Report as submitted to the Trustees and the Council will be sent to any member requesting it from the Treasurer at the Providence office. Moreover, the Treasurer will be happy to answer any questions members may wish to put to him concerning the Society's financial affairs.

In general, it may be said that the Society's finances continue satisfactory, although the margin between income and expense is very narrow—indeed, our ordinary expenses exceeded our income by about \$400, a very small overexpenditure of income.

Returns on invested funds this year have been at the rate of 4.65% computed on book value after deduction of custodial expense. This is slightly less than last year.
