JOURNALS PUBLISHED BY THE AMERICAN MATHEMATICAL SOCIETY

TRANSLATION JOURNALS

Soviet Mathematics–Doklady is a bimonthly translation journal containing the entire pure mathematics section of the DOKLADY AKADEMII NAUK SSSR, the Reports of the Academy of Sciences in the USSR. DOKLADY publishes 500 articles a year, each about four pages long.

Mathematics of the USSR–Izvestiya, a bimonthly journal, is a cover-to-cover translation of IZVESTIYA AKADEMII NAUK SSSR SERIYA MATEMATICHESKAYA, published by the Academy of Sciences of the USSR. This is a journal of current research in all fields of pure mathematics.

Mathematics of the USSR–Sbornik is a bimonthly journal and is a cover-to-cover translation of MATEMATICHESKIĬ SBORNIK (NOVAYA SERIYA), published by the Moscow Mathematical Society and the Academy of Sciences of the USSR. This is a journal of current research in all fields of pure mathematics.

Theory of Probability and Mathematical Statistics is the cover-to-cover translation into English of the TEORIYA VEROYATNOSTEĬ I MATEMATICHESKAYA STATISTIKA published by Kiev University, beginning with the 1970 Soviet publication.

Vestnik of the Leningrad University (Mathematics) is the complete translation into English of the mathematics section of the VESTNIK LENINGRADSKOGO UNIVERSITETA, beginning with the Soviet publication of 1968. All fields of mathematics are covered.

Transactions of the Moscow Mathematical Society is a translation into English of TRUDY MOSKOVSKOGO MATEMATICHESKOGO OBSHCHESTVA which contains the results of original research in pure mathematics.

Proceedings of the Steklov Institute of Mathematics is a translation of the AKADEMIYA NAUK SSSR TRUDY ORDENA LENINA MATEMATICHESKOGO INSTITUTA IMENI V. A. STEKLOVA. Issues contain book-length articles or collections of articles pertaining to the same topic.

CONTENT AND SUBMISSION INFORMATION FOR RESEARCH JOURNALS

Bulletin (New Series) of the American Mathematical Society. Contains Research-Expository Papers, Research Announcements and Reviews of Books on Advanced Mathematics. See inside front cover for submission information.

Mathematics of Computation is a quarterly journal devoted to original papers in numerical analysis, the application of numerical methods and high-speed calculator devices, the computation of mathematical tables, the theory of high-speed calculating devices, and other aids to computation. In addition, reviews and notes in these and related fields are published. Prospective publications should be sent to the Editor, WALTER GAUTSCHI, Computer Sciences Department, Purdue University, West Lafayette, Indiana 47907.

Memoirs of the American Mathematical Society is a bimonthly journal constituting a series of paperbound research tracts which are of the same general character as the papers published in the TRANSACTIONS. An issue of the MEMOIRS is made up of one or more numbers; a number contains either a single monograph or a group of cognate papers. Copy is supplied by the author; information on preparation of camera copy may be obtained by writing to the Editorial Department of the American Mathematical Society. Papers should be sent to the appropriate editor of TRANSACTIONS.

Proceedings of the American Mathematical Society is a monthly journal devoted entirely to research in pure and applied mathematics, principally to the publication of original papers of moderate length. A department called Shorter Notes was established for the purpose of publishing very short papers of an unusually elegant and polished character for which there is normally no other outlet. Send papers directly to one of the editors listed under the subject field of the paper. The numbers in parentheses are the first two digits of major classifications from the 1980 Mathematics Subject Classification (1985 Revision) and describe the fields being handled by the editor.

Logic and foundations (03 04) to THOMAS J. JECH, Pennsylvania State University, University Park, PA 16802

Combinatorics and discrete mathematics (05 15) to THOMAS H. BRYLAWSKI, University of North Carolina, Chapel Hill, NC 27514

Combinatorics, computer science, and information theory (05 68 94) to ANDREW ODLYZKO, Room 2C-370, Bell Laboratories, Murray Hill, NJ 07974

Commutative algebra (06 12 13 14 15 18) to WILLIAM C. WATERHOUSE, Pennsylvania State University, University Park, PA 16802

General algebra (16 17 18 08) to DONALD PASSMAN, University of Wisconsin, Madison, WI 53706

Group theory (20) to BHAMA SRINIVASAN, University of Illinois, Chicago, IL 60680

Algebraic and differential topology (55 57 58) to HAYNES R. MILLER, Université Paris VII, U.E.R. de Mathématique, 2 place Jussieu, 75251 Paris Cedex 05, France

Real variables (26 28 40) to R. DANIEL MAULDIN, Department of Mathematics, North Texas State University, Denton, TX 76202

Complex variables (30 31 32) to IRWIN KRA, State University of New York at Stony Brook, Stony Brook, NY 11794

Number theory (11) to LARRY J. GOLDSTEIN, 2 Redgate Court, Silver Spring, MD 20904

Ordinary differential equations and dynamical systems (33 34 39 49 58) to GEORGE R. SELL, School of Mathematics, University of Minnesota, Minneapolis, MN 55455

Partial differential equations (35 49) to WALTER LITTMAN, School of Mathematics, University of Minnesota, Minneapolis, MN 55455

General analysis (41 42 43 44 45) to RICHARD R. GOLDBERG, Vanderbilt University, Nashville, TN 37235

Functional analysis and operator theory (46 47) to JOHN B. CONWAY, Department of Mathematics, Indiana University, Bloomington, IN 47405

Functional analysis and convexity (46 52) to WILLIAM J. DAVIS, Ohio State University, Columbus, OH 43210

Complex variables, functional analysis, and operator theory (30 46 47) to PAUL S. MUHLY, University of Iowa, Iowa City, IA 52242

Lie groups and geometry (22 51 53) to DAVID G. EBIN, State University of New York at Stony Brook, Stony Brook, NY 11794-3651

General topology (54) to DENNIS BURKE, Miami University of Ohio, Oxford, OH 45056, or DOUG W. CURTIS, Louisiana State University, Baton Rouge, LA 70803

Probability and certain other fields (60–99 inclusive) to BERT E. FRISTEDT, School of Mathematics, University of Minnesota, Minneapolis, MN 55455, or DANIEL W. STROOCK, Department of Mathematics, Room 2-272, Massachusetts Institute of Technology, Cambridge, MA 02139fi

All other communications should be addressed to the Managing Editor, PAUL S. MUHLY, at the above address.

Transactions of the American Mathematical Society is a monthly journal devoted entirely to research in pure and applied mathematics and, in general, includes longer papers than those in the PROCEEDINGS. Two copies of the manuscript should be submitted to one of the following editors.

Ordinary differential equations, partial differential equations and applied mathematics to JOEL A. SMOLLER, Department of Mathematics, University of Michigan, Ann Arbor, MI 48109

Complex and harmonic analysis to LINDA PREISS ROTHSCHILD, Department of Mathematics, University of California at San Diego, La Jolla, CA 92093

Abstract analysis to VAUGHAN F. R. JONES, Department of Mathematics, University of California, Berkeley, CA 94720

Classical analysis to PETER W. JONES, Department of Mathematics, Yale University, Box 2155 Yale Station, New Haven, CT 06520

Algebra, algebraic geometry and number theory to LANCE W. SMALL, Department of Mathematics, University of California at San Diego, La Jolla, CA 92093

Geometric topology and general topology to ROBERT D. EDWARDS, Department of Mathematics, University of California, Los Angeles, CA 90024

Algebraic topology and differential topology to RALPH COHEN, Department of Mathematics, Stanford University, Stanford, CA 94305

Global analysis and differential geometry to TILLA KLOTZ MILNOR, Department of Mathematics, Hill Center, Rutgers University, New Brunswick, NJ 08903

Probability and statistics to RONALD K. GETOOR, Department of Mathematics, University of California at San Diego, La Jolla, CA 92093

Combinatorics and number theory to RONALD L. GRAHAM, Mathematical Sciences Research Center, AT & T Bell Laboratories, 600 Mountain Avenue, Murray Hill, NJ 07974

Logic, set theory and general topology to KENNETH KUNEN, Department of Mathematics, University of Wisconsin, Madison, WI 53706

All other communications to the editors should be addressed to the Managing Editor, WILLIAM B. JOHNSON, Department of Mathematics, Texas A & M University, College Station, TX 77843–3368

OTHER JOURNALS

Abstracts of Papers Presented to the American Mathematical Society contains abstracts of invited hour addresses, of papers presented in special sessions or in sessions for contributed papers, and of papers presented to the Society "by title".

Current Mathematical Publications, issued triweekly, contains a subject-classified index of papers and books being published currently in mathematics.

Mathematical Reviews is a monthly journal devoted to abstracts and reviews of the current mathematical literature of the world. Abstracts and reviews are grouped according to the 1980 Mathematics Subject Classification scheme (1985 Revision). The subscription includes an annual author and subject index.

Notices of the American Mathematical Society, published seven times a year, contains programs and reports of the meetings of the Society, reports on Society business, communications to the membership, and news items and information of interest to the mathematical community.

MANUSCRIPT, PROOF, AND COPYING INFORMATION

MANUSCRIPT

Articles submitted for publication should be typewritten and double-spaced. The *Manual for Authors*, available from the Society, should be consulted for symbols and style conventions. Authors should take the greatest possible care in preparing the original manuscript. Hand-drawn symbols are satisfactory if clearly done; special instructions for the typesetter, when necessary, should be included on a separate sheet.

For Research-Expository Articles and Research Announcements, the first footnote should include *subject classification numbers* representing the primary and secondary subjects of the article. The 1980 Mathematics Subject Classification (1985 Revision) can be found in the December index volumes of Mathematical Reviews.

GALLEY PROOF

When a paper with more than one author has been accepted for publication, only one set of galley proof will be sent. Joint authors should, therefore, indicate which of them should receive galley proof in the event that the manuscript is accepted for publication.

COPYING AND REPRINTING

Individual readers of this publication, and nonprofit libraries acting for them, are permitted to make fair use of the material, such as to copy an article for use in teaching or research. Permission is granted to quote brief passages from this publication in reviews provided the customary acknowledgment of the source is given.

Republication, systematic copying, or multiple reproduction of any material in this publication (including abstracts) is permitted only under license from the American Mathematical Society. Requests for such permission should be addressed to the Executive Director, American Mathematical Society, P.O. Box 6248, Providence, Rhode Island 02940.

The appearance of the code on the first page of an article in this journal indicates the copyright owner's consent for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law, provided that the fee of $1.00 plus $.25 per page for each copy be paid directly to Copyright Clearance Center, Inc., 21 Congress Street,

Salem, Massachusetts 01970. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotion purposes, for creating new collective works, or for resale.

OFFPRINTS AND ADDRESS CHANGES

Any inquiries concerning a paper which has been accepted for publication, including information regarding reprints or changes of address for mailing proof, should be sent directly to the Editorial Department, American Mathematical Society, P.O. Box 6248, Providence, Rhode Island 02940.

COPYRIGHT TRANSFER AGREEMENT

The signing of a Copyright Transfer Agreement is a requirement of publication in the BULLETIN. A copy of the agreement is sent to the author upon receipt of a manuscript in the Providence Office of the Society; in case of joint authors, a copy is sent to each author. Authors are urged to return the form immediately to prevent delays in processing and publishing the manuscript. The 1984 edition of the *Manual for Authors* has a description of Society policy concerning copyright and a copy of the agreement.

PUBLICATION CHARGES

Research Announcements carry a page charge of $50.00 per page to help defray the cost of publication. This amount is charged to the institution or to a contract supporting the research reported in the published paper. The publication charge policy of the United States Federal Council for Science and Technology (FCST) is reported on page 112 of the February, 1975 issue of the NOTICES of the American Mathematical Society. In no case is the author personally responsible for paying the page charge, nor is acceptance of the author's paper for publication dependent upon payment of the page charge.

ABCDEFGHIJ — 89876

Research-Expository Papers

Hyperbolic and Diophantine analysis *by Serge Lang* 159
Arithmetic on curves *by Barry Mazur* 207

Research Announcements

Solution of a problem raised by Rubel *by Y. Katznelson* 261
L^p estimates for maximal functions and Hilbert transforms along flat convex curves in $\mathbf{R}^2$ *by Hasse Carlsson, Michael Christ, Antonio Cordoba, Javier Duoandikoetxea, José L. Rubio de Francia, James Vance, Stephen Wainger and David Weinberg* 263
An almost-orthogonality principle with applications to maximal functions associated to convex bodies *by Anthony Carbery* 269
IP_r-sets, Szemerédi's theorem, and Ramsey theory *by H. Furstenberg and Y. Katznelson* 275
Compact Riemannian manifolds with positive curvature operators *by John Douglas Moore* 279
The classification of maps of surfaces *by David Gabai and William H. Kazez* 283
Generalizations of the Neumann system *by R. J. Schilling* 287
Intersections of higher-weight cycles over quaternionic modular surfaces and modular forms of nebentypus *by B. Brent Gordon* 293
Rigidity among prime-knot complements *by Wilbur Whitten* 299
Realizing symmetries of a subshift of finite type by homeomorphisms of spheres *by J. B. Wagoner* 301

Book Reviews

Recurrence in ergodic theory and combinatorial number theory *by H. Furstenberg*—**Reviewed by** *Karl Petersen* 305
Nonparametric functional estimation *by B. L. S. Prakasa Rao*—**Reviewed by** *James R. Thompson* 310
Gauss, a biographical study *by W. K. Bühler*—**Reviewed by** *Paul T. Bateman* 312
On a new method of analysis and its applications *by Paul Turán*—**Reviewed by** *Robert Tijdeman* 318
Invariance theory, the heat equation, and the Atiyah-Singer index theorem *by Peter B. Gilkey*—**Reviewed by** *Jozef Dodziuk* 322
