

Contents

L. NIETO-BARAJAS, Y. JI and V. BALADANDAYUTHAPANI A semiparametric Bayesian model for comparing DNA copy numbers	345
J. J. DUARTE SANCHEZ, W. W. DA LUZ FREITAS and G. M. CORDEIRO The extended generalized half-normal distribution.....	366
L. H. G. DORE, G. J. A. AMARAL, J. T. M. CRUZ and A. T. A. WOOD Bias-corrected maximum likelihood estimation of the parameters of the complex Bingham distribution.....	385
M. GORNY The Cramér condition for the Curie–Weiss model of SOC	401
T. J. KOZUBOWSKI and K. PODGÓRSKI Esscher-transformed Laplace distribution revisited	432
J. RUEB Continuity results and estimates for the Lyapunov exponent of Brownian motion in stationary potential	435
Z. WEI, Y. FAN and J. ZHANG Statistical inference on restricted linear regression models with partial distortion measurement errors	464
F. J. RUBIO, E. O. OGUNDIMU and J. L. HUTTON On modelling asymmetric data using two-piece sinh–arcsinh distributions....	485
D. BORKOWSKI and K. JAŃCZAK-BORKOWSKA Generalized backward stochastic variational inequalities driven by a fractional Brownian motion.....	502
