## **T<sub>E</sub>X users do it with Springer macros**

If you are used to preparing your manuscripts with plain-T<sub>E</sub>X, you may be interested to hear that we have created a macro package for the layout of the journals listed here.

Articles may now be submitted as plain-T<sub>E</sub>X files using our macros. They will be phototypeset directly from your T<sub>E</sub>X-file, thus cutting down proofreading and publishing times.

The macros plus AMS fonts are available on 3.5" DOS diskettes and are free of charge.

Please order your copy by writing to
