

DIFFERENTIAL AND INTEGRAL EQUATIONS

Volume 23, Numbers 3-4

March/April 2010

J. Giacomoni, S. Prashanth, and K. Sreenadh, Multiple positive solutions for the N -Laplace equation with nonlinear Neumann boundary conditions	201
B.P.W. Fernando, S.S. Sritharan, and M. Xu, A simple proof of global solvability of 2-D Navier-Stokes equations in unbounded domains	223
Emna Ezzoug, Olivier Goubet, and Ezzeddine Zahrouni, Semi-discrete weakly damped nonlinear 2-D Schrödinger equation	237
Abbas Moameni, A variational principle associated with a certain class of boundary-value problems	253
Sigmund Selberg and Achenef Tesfahun, Low regularity well-posedness for some nonlinear Dirac equations in one space dimension	265
N. Abada, R.P. Agarwal, M. Benchohra, and H. Hammouche, Extrapolation method and some nondensely defined impulsive semilinear neutral partial functional differential inclusions	279
Boling Guo, Chunxiao Guo, and Jingjun Zhang, Martingale and stationary solutions for stochastic non-Newtonian fluids	303
Ciprian G. Gal and Mahamadi Warma, Well posedness and the global attractor of some quasi-linear parabolic equations with nonlinear dynamic boundary conditions	327
Carlo Alberto Bosello and Barbara Lazzari, Energy decay and propagation in a viscoelastic fluid with memory	359
Boling Guo and Daiwen Huang, On the primitive equations of large-scale ocean with random boundary	373
Nikolaos Tzirakis, Errata to “The Cauchy problem for the semi-linear quintic Schrödinger equation in 1D”, <i>Differential Integral Equations</i> , 18 (2005), No. 8, 947–960.	399
