

DIFFERENTIAL AND INTEGRAL EQUATIONS

Volume 32, Numbers 9-10

September/October 2019

Josef Diblík, Radoslav Chupáč, and Miroslava Růžičková, Increasing convergent and divergent solutions to nonlinear delayed differential equations	493
Yong-Kui Chang and Rodrigo Ponce, Sobolev type time fractional differential equations and optimal controls with the order in $(1, 2)$	517
Rémy Rodiac, Variational reduction for semi-stiff Ginzburg-Landau vortices	541
Wei-Chuan Wang, Remarks on eigenfunction expansions for the p-Laplacian	583
