

DIFFERENTIAL AND INTEGRAL EQUATIONS

Volume 33, Numbers 5-6

May/June 2020

Ikkei Shimizu , On uniqueness for Schrödinger maps with low regularity large data	207
Daisuke Naimen and Masataka Shibata , Existence and multiplicity of positive solutions of a critical Kirchhoff type elliptic problem in dimension four	223
Satoshi Masaki and Koki Sugiyama , Optimal decay rate of solutions for nonlinear Klein-Gordon systems of critical type	247
Tetsutaro Shibata , Asymptotic expansion of oscillatory bifurcation curves of ODEs with nonlinear diffusion	257
Min Ji, Weiwei Qi, Zhongwei Shen, and Yingfei Yi , Noise-vanishing concentration and limit behaviors of Periodic probability solutions	273
