V. R. VAREA: Lie algebras whose proper subalgebras are either semisimple, abelian or almost-abelian.....	221
A. MURAKAMI: Kuramochi boundaries of infinite networks and extremal problems	243
H. WAKAKI: Discriminant analysis under elliptical populations	257
L. T. HOA, R. M. MIRÒ-ROIG and W. VOGEL: On numerical invariants of locally Cohen-Macaulay schemes in \mathbb{P}^n	299
L. ERBE and Q. KONG: Explicit conditions for oscillation of neutral differential systems	317
K. SAKAMOTO: Smooth linearization of vector fields near invariant manifolds	331
N. KAWAMOTO and A. MITSUKAWA: A note on complement ideals of Lie algebras	357
S. IZUMIYA: A note on G -extensible regularity condition	359
K. FUJII: J -groups of the quaternionic spherical space forms	365
T. OGAWA: Travelling wave solutions to a perturbed Korteweg-de Vries equation	401
A. F. IVANOV and P. MARUŠIAK: Oscillatory properties of systems of neutral differential equations	423
S.-B. HSU, P. WALTMAN and S. F. ELLERMEYER: A remark on the global asymptotic stability of a dynamical system modeling two species competition	435
