23-2 (JUL. 1993), 223-448 ISSN 0018-2079

CONTENTS

PAGE

W. BALSER: Calculation of the Stokes' multipliers for a polynomial system of rank 1 having distinct eigenvalues at infinity 223

T. HASHIMOTO, K. OGURA, K. OKAMOTO and R. SAWAE: Borel-Weil theory and Feynman path integrals on flag manifolds 231

R. SAWAE: The conformal factor and a central extension of a formal loop group with values in $PSL(2, \mathrm{R})$ 249

K. KOJO: SαS $M(t)$-processes and their canonical representations 305

T. MATUMOTO: Any statistical manifold has a contrast function – On the C^3-functions taking the minimum at the diagonal of the product manifold 327

P. M. SOARDI and M. YAMASAKI: Parabolic index and rough isometries 333

Y. KAGEI and M. SKOWRON: Nonstationary flows of nonsymmetric fluids with thermal convection 343

N. NISHIDA: Admissibility of some tests, multiple decision procedures and classification procedures in multivariate analysis 365

T. NAKAKI: Numerical treatment on the behavior of interfaces in oil-reservoir problems 417
