Note on continuity of information rate By NAOHUMI MURAKI and MASANORI OHYA	529
Symmetric closed operators commuting with a unitary type I representation of finite multiplicity are self-adjoint By ERIK G.F. THOMAS	551
Naturally reductive Riemannian S -manifolds By A.J. LEDGER	558
Local real analytic boundary regularity of the $\bar{\partial}$ -equation on convex domains By ZHENHUA CHEN	589
On one-dimensional metric foliations in Einstein spaces By HONG KYUNG PAK	594
Copulas and Markov processes By WILLIAM F. DARSOW, BAO NGUYEN and ELWOOD T. OLSEN	600
Endomorphisms of certain irrational rotation C^* -algebras By KAZUNORI KODAKA	643
Some research problems about algebraic differential equations II By LEE A. RUBEL	659
On quotients of Banach spaces having shrinking unconditional bases By E. ODELL	681
Involutions and stationary point free \mathbf{Z}_4 -actions By CLAUDINA IZEPE RODRIGUES	696
