

International Statistical

REVIEW

Revue Internationale de Statistique

Volume 72 Number 1 April 2004

Featuring a Collection of Papers on Population Forecasting, I

Guest Editors: Wolfgang Lutz and Joshua Goldstein

| Contents | <i>Page</i> |
|---|-------------|
| Lutz, W. and Goldstein, J.R.: Introduction: how to deal with uncertainty in population forecasting? | 1 |
| Keilman, N. and Pham, D.Q.: Time series based errors and empirical errors in fertility forecasts in the Nordic countries | 5 |
| Li, N., Lee, R. and Tuljapurkar, S.: Using the Lee–Carter method to forecast mortality for populations with limited data | 19 |
| Lundström, H. and Qvist, J.: Mortality forecasting and trend shifts: an application of the Lee–Carter model to Swedish mortality data | 37 |
| Jiang, L. and O’Neill, B.C.: Toward a new model for probabilistic household forecasts | 51 |
| Alders, M. and de Beer, J.: Assumptions on fertility in stochastic population forecasts | 65 |
| Lutz, W. and Scherbov, S.: Probabilistic population projections for India with explicit consideration of the education-fertility link | 81 |
| Goldstein, J.R.: Simpler probabilistic population forecasts: making scenarios work | 93 |

Regular Papers:

| | |
|--|-----|
| Allende, H., Elías, C. and Torres, S.: Estimation of the option prime: microsimulation of backward stochastic differential equations | 107 |
| Mecklin, C.J. and Mundfrom, D.J.: An appraisal and bibliography of tests for multivariate normality | 123 |
| Fellegi, I.P.: Official statistics—Pressures and challenges. ISI President’s invited lecture, 2003 | 139 |
