

JOURNAL OF COMMUTATIVE ALGEBRA

Volume 2

SPRING 2010

Number 1

CONTENTS

Free resolutions of some edge ideals of simple graphs
By RACHELLE R. BOUCHAT 1

Sequentially Cohen-Macaulayness versus parametric
decomposition of powers of parameter ideals
By SHIRO GOTO, YOSUKE HORIUCHI
AND HIDETO SAKURAI 37

The Eliahou-Kervaire resolution is cellular
By JEFFREY MERMIN 55

On the discrete counterparts of algebras with straightening laws
By MITSUHIRO MIYAZAKI 79

A refinement of sharply F -pure and strongly F -regular pairs
By KARL SCHWEDE 91

Gorenstein projective dimension with respect to a semidualizing
module
By DIANA WHITE 111
