

JOURNAL OF COMMUTATIVE ALGEBRA

Volume 2

WINTER 2010

Number 4

CONTENTS

Guest Editor: FREYJA HREINSDÓTTIR

Dedication: Special issue in honor of Ralf Fröberg on the occasion of his 65th birthday
By FREYJA HREINSDÓTTIR 427

Solvable infinite filiform Lie algebras
By CLAS LÖFWALL 429

Non-vanishing forms in projective space over finite fields
By SAMUEL LUNDQVIST 437

Discriminant coamoebas in dimension two
By LISA NILSSON AND MIKAEL PASSARE 447

Three-dimensional manifolds, skew-Gorenstein rings and their cohomology
By JAN-ERIK ROOS 473

Coset diagrams in the study of finitely presented groups with an application to quotients of the modular group
By ANNA TORSTENSSON 501

Hilbert functions of multigraded algebras, mixed multiplicities of ideals and their applications
By N.V. TRUNG AND J.K. VERMA 515

Some variants of Macaulay's and Max Noether's theorems
By ELIZABETH WULCAN 567

Volume Index for Volume 2 581
