CONTENTS

Invertibility and Positive Invertibility
of Integral Operators in L^∞
By M.I. GIL' 1

The Extrapolation Method for Two-Dimensional
Volterra Integral Equations Based on the Asym-
ptotic Expansion of Iterated Galerkin Solutions
By GUOQIANG HAN AND RUIFANG WANG 15

Finite Element Approximation with Quadrature to a
Time Dependent Parabolic Integro-Differential
Equation with Nonsmooth Initial Data
By AMIYA K. PANI AND RAJEN K. SINHA 35

The Tolerant Qualocation Method for Variable-
Coefficient Elliptic Equations on Curves
By IAN H. SLOAN AND THANH TRAN 73
