

**CONTENTS**

Well-conditioned boundary integral equations for two-  
dimensional sound-hard scattering problems in  
domains with corners  
By AKASH ANAND, JEFF OVALL AND  
CATALIN TURC ..... 321

Discrete superconvergence of collocation solutions for  
first-kind Volterra integral equations  
By HUI LIANG AND HERMANN BRUNNER ..... 359

Compactness of linear integral operators in ideal spaces  
of vector functions  
By MARTIN VÄTH ..... 393

Tractability of the Fredholm problem of the second kind  
By A.G. WERSCHULZ AND H. WOŹNIAKOWSKI ..... 413
