
CONTENTS

Asymptotic behavior of fractional order Riemann-
Liouville Volterra-Stieltjes integral equations
By SAÏD ABBAS, MOUFFAK BENCHOHRA,
BOUALEM A. SLIMANI AND JUAN J. TRUJILLO 311

Existence, uniqueness and regularity of solutions to a class
of third-kind Volterra integral equations
By SONIA SEYED ALLAEI, ZHAN-WEN YANG
AND HERMANN BRUNNER 325

Stability of nonlinear Urysohn integral equations via global
diffeomorphisms and implicit function theorems
By DOROTA BORS 343

A necessary condition for a non-negative solution of an
integral equation
By T.A. BURTON 367

Boundary integral equations for the transmission
eigenvalue problem for Maxwell's equations
By FIORALBA CAKONI, HOUSSEM HADDAR
AND SHIXU MENG 375

Boundary integral solution of potential problems arising
in the modelling of electrified oil films
By DAVID J. CHAPPELL 407

A well-conditioned boundary integral equation for
transmission problems of electromagnetism
By DAVID LEVADOUX, FLORENCE MILLOT
AND SÉBASTIEN PERNET 431
