
CONTENTS

Well-posedness and stability for a viscoelastic wave equation
with density and time-varying delay in \mathbb{R}^n
BY BAOWEI FENG, XINGUANG YANG AND KEQIN SU 465

Volterra-Choquet integral equations
BY SORIN G. GAL 495

Embedded eigenvalues for the Neumann-Poincaré operator
BY WEI LI AND STEPHEN P. SHIPMAN 505

A new class of Volterra-type integral equations from relativistic
quantum physics
BY MATTHIAS LIENERT AND RODERICH TUMULKA 535

Abstract weighted pseudo almost automorphic functions, convolution
invariance and neutral integral equations with applications
BY MANUEL PINTO AND FELIPE POBLETE 571

INDEX 623
