

CONTENTS

Y. H. RHIE and G. WHAPLES , Hecke operators in cohomology of groups	431
Michael G. CRANDALL , Differential equations on convex sets	443
Nobuhiro ISHIKAWA , Multiplications in cohomology theories with coefficient maps ...	456
Nobuyoshi MOTOHASHI , A theorem in the theory of denition	490
Koichi OGIUE , On complex hypersurfaces of the complex projective space II	495
Shoshichi KOBAYASHI and Takushiro OCHIAI , On complex manifolds with positive tangent bundles	499
Shinnosuke OHARU , On the generation of semigroups of nonlinear contractions	526
Masuyuki HITSUDA and Akinobu SHIMIZU , The central limit theorem for additive functionals of Markov processes and the weak convergence to Wiener measure	551
Teturo KAMAE , Spectrum of a substitution minimal set	567
Shukichi TANNO , On the isometry groups of Sasakian manifolds	579
