

CONTENTS

T. M. FLETT , On the radial order of a univalent function.	1
Tadashi NAGANO , Compact homogeneous spaces and the first Betti number.	4
Tadashi NAGANO , The conformal transformation on a space with parallel Ricci tensor.	10
Eiichi ABE , On the groups of C. Chevalley.	15
Yoshihiro TASHIRO , A theory of transformation groups on generalized spaces and its applications to Finsler and Cartan spaces.	42
Koichi SAKAGUCHI , On a certain univalent mapping.	72
Yoshimichi MIBU , Cauchy's theorem in Banach spaces.	76
Takeshi ISHIKAWA , On Dedekind rings.	83
