

CONTENTS

| | |
|---|-----|
| Tokyo University of Education and Akira HATTORI , On Prüfer rings. | 381 |
| Gaisi TAKEUTI , Ordinal diagrams. | 386 |
| Yukiyosi KAWADA , Class formations IV. | 395 |
| Morio OBATA , Ane connections in a quaternion manifold and transformations preserving the structure. | 406 |
| Minoru NAKAOKA , Cohomology mod p of the p -fold symmetric products of spheres. . | 417 |
| Takayoshi MITSUI , On the partitions of a number into the powers of prime numbers. .. | 428 |
| Makiko NISIO , Note on Random Riemann Sum. | 448 |
| Ryosuke IWAHASHI , Domains spread on a complex space. | 452 |
| Ichiro SATAKE , The Gauss-Bonnet Theorem for V-manifolds. | 464 |
| Andrew MacLeish Distinguished Service Professor of Mathematics The University of Chicago, Marshall H. STONE, Chicago and U. S. A , The future of mathematics. | 493 |
