

VOL. 62 NO. 1

JANUARY, 2010

CONTENTS

T. OKUMA , Another proof of the end curve theorem for normal surface singularities	1
T. TAKAGI , The cuspidal class number formula for certain quotient curves of the modular curve $X_0(M)$ by Atkin-Lehner involutions	13
G. LUPTON and S. B. SMITH , Whitehead products in function spaces: Quillen model formulae	49
H. ICHIMURA , Hilbert-Speiser number fields and the complex conjugation	83
S. WAKABAYASHI , On the Cauchy problem for hyperbolic operators of second order whose coefficients depend only on the time variable	95
H. SAKO , Concrete classification and centralizers of certain $Z^2 \rtimes SL(2, Z)$ -actions	135
T. FIEDLER and V. KURLIN , A 1-parameter approach to links in a solid torus	167
M. KAWASHIMA and M. OKA , On Alexander polynomials of certain $(2, 5)$ torus curves	213
S. KRAČMAR, Š. NEČASOVÁ and P. PENEL , Anisotropic L^2 -estimates of weak solutions to the stationary Oseen-type equations in 3D-exterior domain for a rotating body	239
S. DRAGOMIR and Y. KAMISHIMA , Pseudoharmonic maps and vector fields on CR manifolds	269
K. MATSUMOTO and H. SHIGA , A variant of Jacobi type formula for Picard curves	305
D.-C. CHANG, D. YANG and Y. ZHOU , Boundedness of sublinear operators on product Hardy spaces and its application	321
