

- 713 **Sobolev regularity for the Monge–Ampère equation in the Wiener space**
Vladimir I. Bogachev and Alexander V. Kolesnikov
- 739 **The classification of semistable plane sheaves supported on sextic curves**
Mario Maican
- 787 **Krein’s strings whose spectral functions are of polynomial growth**
Shinichi Kotani
- 815 **A theta expression of the Hilbert modular functions for $\sqrt{5}$ via the periods of $K3$ surfaces**
Atsuhira Nagano
- 845 **On higher Fitting ideals of Iwasawa modules of ideal class groups over imaginary quadratic fields and Euler systems of elliptic units**
Tatsuya Ohshita
- 889 **Index to Volume 53**
