CONTENTS

Vol. 23, No. 2, June 1971

TETSUO NAKAMURA, A remark on unipotent groups of characteristic $p > 0$	127
WATARU TAKAHASHI, Invariant functions for amenable semigroups of positive contractions on L^1	131
KENTARO YANO, Submanifolds with parallel mean curvature vector of a Euclidean space or a sphere.	144
MINORU HAYASAKA, Tensor fields lifted to cotangent bundles and differential concomitants of tensor fields in the base manifolds.	160
CHENG-HSIEN CHEN, On a Riemannian manifold admitting Killing vectors whose covariant derivatives are conformal Killing tensors.	168
KENTARO YANO AND MASAFUMI OKUMURA, On normal (f, g, u, v, λ) -structures on submanifolds of codimension 2 in an even-dimensional Euclidean space. ..	172
AKIRA INATOMI, A note on Galois extension of separable algebras.	198
TAKEHIRO ITOH, A note on minimal submanifolds with M -index 2.	204
KAZUTOMO KAWAMURA, A limit property of sequential decision process.	208
KICHIRO TAKAMATSU, Some properties of 6-dimensional K -spaces.	215
RICHARD DELANGHE, On a generalized notion of harmonic functions.	233
KENTARO YANO AND MARIKO KONISHI, Notes on almost isometries.	238
MAKOTO SAKAI, Univalence of analytic mappings of a Riemann surface into itself.	248
