

NOTRE DAME JOURNAL OF FORMAL LOGIC

VOLUME 29, 1988

VOLUME CONTENTS

Adámek, Jiri, Alan H. Mekler, Evelyn Nelson, and Jan Reiterman, On the logic of continuous algebras	365–380
Akama, Seiki, Constructive predicate logic with strong negation and model theory	18–27
Bernardi, Claudio and Paola D’Aquino, Topological duality for diagonalizable algebras	345–364
Boolos, George, Alphabetical order	214–215
Boričić, Branislav, On certain normalizable natural deduction formulations of some propositional intermediate logics	563–568
Ceniza, Claro R., Material implication and entailment	510–519
Cohen, Daniel H., The problem of counterpossibles	91–101
Čubrić, Djordje, There are denumerably many ternary intuitionistic Sheffer functions	579–581
Dalhaus, E., A. Israeli, and J. A. Makowsky, On the existence of polynomial time algorithms for interpolation problems in propositional logic	497–509
D’Aquino, Paola and Claudio Bernardi, Topological duality for diagonalizable algebras	345–364
Duchhart, Dennis, A unified approach to relative interpolation	412–419
Dzierzgowski, Daniel, Many-sorted elementary equivalence	530–542
Englebretsen, George, Preliminary notes on a new modal syllogistic	381–395
Fejer, Peter A. and Richard A. Shore, Infima of recursively enumerable truth table degrees	420–437
Hailperin, Theodore, Infinity truth-functional logic	28–33
Humberstone, I. L., Operational semantics for positive R	61–80
Israeli, A., E. Dalhaus, and J. A. Makowsky, On the existence of polynomial time algorithms for interpolation problems in propositional logic	497–509

Jäger, Thomas , <i>De Re</i> and <i>De Dicto</i>	81–90
Kaminski, Michael , Nonstandard connectives of intuitionistic propositional logic	309–331
Kreisel, Georg , Book review: <i>Kurt Gödel, Collected Works, Vol. I</i>	160–181
Lance, Mark , On the logic of contingent relevant implication: A conceptual incoherence in the intuitive interpretation of <i>R</i>	520–529
Lavers, Peter , Relevance and disjunctive syllogism	34–44
Lindström, Per , Partially generic formulas in arithmetic	185–192
Lokhorst, Gert-Jan C. , The modal status of antinomies	102–105
Makowski, J. A., E. Dalhaus, and A. Israeli , On the existence of polynomial time algorithms for interpolation problems in propositional logic	497–509
Mekler, Alan H., Jiri Adámek, Evelyn Nelson, and Jan Reiterman , On the logic of continuous algebras	365–380
Meyer, J.-J. Ch. , A different approach to deontic logic: Deontic logic viewed as a variant of dynamic logic	109–136
Mortenson, Chris , Inconsistent number systems	45–60
Murawski, Roman , Pointwise definable substructures of models of Peano arithmetic	295–308
Nelson, Evelyn, Jiri Adámek, Alan H. Mekler, and Jan Reiterman , On the logic of continuous algebras	365–380
Pambuccian, Victor , Simplicity	396–411
Pannier, Russell and Thomas Sullivan , Mindful logic: How to resolve some paradoxes of identity	249–266
Pasini, Leonardo , Generalized Hardy fields in several variables	193–197
Patton, Thomas E. , On begging the question ‘Who is N?’	553–562
Pearce, David and Heinrich Wansing , On the methodology of possible worlds semantics, I: Correspondence theory	482–496
Pelletier, Francis Jeffrey and W. David Sharp , On proving functional incompleteness in symbolic logic classes	235–248
Reinhardt, William N. , Epistemic set theory	216–228
Reiterman, Jan, Jiri Adámek, Alan H. Mekler, and Evelyn Nelson , On the logic of continuous algebras	365–380

Sain, Ildikó , Concerning some cylindric algebra versions of the downward Löwenheim–Skolem theorem	332–343
Schumm, George F. , The number of nonnormal extensions of S_4	106–108
Shannon, Gary , Equivalent versions of a weak form of the axiom of choice	569–573
Shapiro, Stewart , The Lindenbaum construction and decidability	208–213
Sharp, W. David and Francis Jeffrey Pelletier , On proving functional incompleteness in symbolic logic classes	235–248
Shaw, J. L. , The Nyāya on double negation	139–154
Shelah, Saharon , Some notes on iterated forcing	1–17
Shore, Richard A. and Peter A. Fejer , Infima of recursively enumerable truth table degrees	420–437
Smith, Carl H. , A note on arbitrarily complex recursive functions	198–207
Sorenson, Roy A. , Are enthymemes arguments?	155–159
Sorenson, Roy A. , Precisification by means of vague predicates	267–275
Sullivan, Thomas and Russell Pannier , Mindful logic: How to resolve some paradoxes of identity	249–266
Szatkowski, Mirosław , Semantical analysis of superrelevant predicate logics with quantification	281–294
Ulrich, Dolph , A five-valued model of the E - p - q theses	137–138
Wansing, Heinrich and David Pearce , On the methodology of possible worlds semantics, I: Correspondence theory	482–496
Weston, T. S. , Approximate truth and Łukasiewicz logic	229–234
White, Michael J. , An ‘almost classical’ period-based tense logic	438–453
Williamson, Timothy , First-order logics for comparative similarity	457–481
Wu, Kathleen Johnson , A basic free logic	543–552
Zimbarb Sobrinho, Jacob , Definability of self-referential systems	574–578
