

NIHONKAI MATHEMATICAL JOURNAL

Vol. 31, No. 1 (2020)

Contents

Michio SETO:

Quotients of kernel functions and post-composition 1

Shigeru WATANABE:

Differential equation derived from generating function – the case of disk
polynomials 7

Silvestru Sever DRAGOMIR:

Some reverse inequalities for positive linear maps of selfadjoint
operators 15

Takashi OGURO:

Remarks on certain classes of four-dimensional almost Hermitian
manifolds 27

Mitio TAKANO:

A modified subformula property for the modal logic KC4 35

Hiromi EI, Hiroko HAYASHI and Kazushi KOMATSU:

On folding of planar regular pentagon rings 45
