

NAGOYA
MATHEMATICAL JOURNAL

VOL. 56

January, 1975

PUBLISHED BY
DEPARTMENT OF MATHEMATICS, FACULTY OF SCIENCE
NAGOYA UNIVERSITY

Correspondences concerning subscription, and back issues
of the journal should be addressed to

KINOKUNIYA BOOK-STORE CO., LTD.
17-7 Shinjuku 3-chome, Shinjuku-ku
TOKYO 160-91 JAPAN

or

KINOKUNIYA BOOK STORES
OF AMERICA CO., LTD.
West Bldg., Japanese Cultural and
Trade Center
1581 Webster St.,
San Francisco, CALIFORNIA 94115,
U.S.A.

The annual subscription price for 1974 is \$ 83.20

NAGOYA
MATHEMATICAL JOURNAL

VOL. 56

January, 1975

Edited by

TAKEYUKI HIDA, NOBORU ITO, TOMIO KUBOTA (Managing Editor),
HIDEYUKI MATSUMURA, HISASI MORIKAWA, AKIHIKO MORIMOTO,
KIYOSHI NOSHIRO, KATUZI ONO, YOSHIHIRO SHIKATA,
KÔSAKU YOSIDA

PUBLISHED BY
DEPARTMENT OF MATHEMATICS, FACULTY OF SCIENCE
NAGOYA UNIVERSITY

Nagoya Mathematical Journal is, in principle, the official organ of the Department of Mathematics, Nagoya University, designed solely for the publication of research papers. However, some invited papers and other original papers in mathematics from all over the world are also regularly published in Nagoya Mathematical Journal. Currently, 4 volumes are published each year.

All manuscripts should be typewritten in English, French, or German with sufficient space between lines, and special letters such as bold-face, German, Greek, and script should be clearly marked. All single letters used in formulas will appear in italic, and mathematical symbols will appear in the standard style usual for mathematical literature. Therefore, it is not required to mark such letters and symbols. Instructions which conflict with the general printing rules of the journal will not be accepted. For example, each paragraph title should appear in bold-face. Good reproductions of a typewritten manuscript are acceptable.

As soon as we receive a manuscript, a receipt will be sent to the author. When a manuscript has been sent to a referee, the author will receive another notice. These receipts and notices, however, do not mean anything regarding the acceptability of the paper for publication. If the editorial committee has decided to accept a paper, the author will receive a notice containing the number of the volume in which the paper will appear.

Each author, as well as each co-author, will have 100 reprints, while only one set of proof will be prepared per paper for proof-reading by the author(s). Therefore, a joint paper must carry instructions as to whom the proof should be sent. Attached to the proof, an order form will be sent to the author for the additional reprints which are available at approximately 3¢ per page.

The actual business of the Nagoya Mathematical Journal is performed by the managing editor with the cooperation of editors residing in Nagoya.

The manuscript and general correspondence should be addressed to: Managing editor, Nagoya Mathematical Journal, Department of Mathematics, Faculty of Science, Nagoya University, Chikusa-ku, Nagoya, 464, Japan.

CONTENTS

On the existence of various bounded harmonic functions with given periods, II.....	M. HARA	1
Freely acting automorphisms of abelian C^* -algebras.....	M. ENOMOTO and K. TAMAKI	7
On the distribution of zeros of a strongly annular function...	A. OSADA	13
Solutions to extremal problems in E^p space.....	V. VINGE	19
The extension of G -foliations to Tangent bundles of higher order.....	L. A. CORDERO	29
On some p -adic properties of the eichler-selberg trace formula	M. KOIKE	45
On a distance function between Differentiable structures.....	Y. SHIKATA	53
On p -adic L -functions and cyclotomic fields.....	R. GREENBERG	61
Canonical isomorphisms of energy finite solutions of $\Delta u = Pu$ on open Riemann surfaces.....	M. NAKAI	79
On a classification of the function fields of algebraic tori.....	S. ENDO and T. MIYATA	85
A test for Picard principle.....	M. NAKAI	105
On completeness of holomorphic principal bundles.....	S. TAKEUCHI	121
Large increments of Brownian motion	R. KAUFMAN	139

Modular forms of half integral weight and the integral of certain theta-functions.....	S. NIWA	147
On a problem of Bonar concerning Fatou points for annular functions.....	A. OSADA	163
A note on a result of A. J. Lohwater and George Piranian....	G. L. CSORDAS	171
Non-linear elliptic operators on a compact manifold and an implicit function theorem.....	T. SUNADA	175
On the hopf fibration over Z	T. ONO	201
