

CONTENTS

N. Celniker , Eigenvalue bounds and girths of graphs of finite, upper half-planes.....	1
L. Z. Gao and G. Liao , On the compactness of a class of Riemannian manifolds.....	23
D. Hensley , The distribution mod n of fractions with bounded partial quotients.....	43
G. Lawlor and F. Morgan , Paired calibrations applied to soap films, immiscible fluids, and surfaces or networks minimizing other norms.	55
R. D. Mauldin and M. Urbanski , Conformal repellers with dimension one are Jordan curves.....	83
A. P. Silberbush , Order of the identity of the stable summands of $\Omega^{2k}S^{2n+1}$	97
I. Takarajima , On a construction of pseudo-Anosov diffeomorphisms by sequences of train tracks.....	121
T. N. Venkataramana , On systems of generators of arithmetic subgroups of higher rank groups.....	191
