CONTENTS

N. Asmar, E. Berkson, and T. A. Gillespie, Invariant subspaces and harmonic conjugation on compact abelian groups 201
A. K. Das and S. S. Khare, Cobcat and singular bordism 215
P. Felt, Poles of Eisenstein series on SL_n induced from maximal parabolics . . . 229
S. Giuffrida, R. Maggioni, and A. Ragusa, On the postulation of 0-dimensional subschemes on a smooth quadric 251
P. Greenberg, The Euler class for "piecewise" groups 283
J. Inoue, L^p-Fourier transforms on nilpotent Lie groups and solvable Lie groups acting on Siegel domains 295
K. Iwasaki, Fuchsian moduli on a Riemann surface—its Poisson structure and Poincaré-Lefschetz duality 319
G. Pisier, Interpolation between H^p spaces and non-commutative generalizations. I 341
R. F. Williams, The braid index of generalized cables 369
K. Zhu, *BMO* and Hankel operators on Bergman spaces 377

Vol. 155, No. 2 October 1992
