

Sumari

Articles

A. Debernardi , Weighted norm inequalities for generalized Fourier-type transforms and applications	3–42
F. Bernicot, M. Vitturi , Bilinear Rubio de Francia inequalities for collections of non-smooth squares	43–73
Q. Sun , Hybrid bounds for twists of $GL(3)$ L -functions	75–102
D. Kosz , BMO spaces for nondoubling metric measure spaces ..	103–119
T. Crespo, M. Salguero , Computation of Hopf Galois structures on low degree separable extensions and classification of those for degrees p^2 and $2p$	121–141
N. Alon, I. Ruzsa, J. Solymosi , Sums, products, and ratios along the edges of a graph	143–155
P. J. Rabier , The generic dimension of spaces of \mathbf{A} -harmonic polynomials	157–182
B. A. F. Wehrfritz , Groups with no proper contranormal subgroups	183–194
E. Nart , Key polynomials over valued fields	195–232
M. Forester, I. Soroko, J. Tao , Genus bounds in right-angled Artin groups	233–253
S. Guo , On a binary system of Prendiville: The cubic case	255–281
K. Kielanowicz, A. Luczak , Ergodic properties of Markov semigroups in von Neumann algebras	283–331
M. Falla Luza, P. Sad , Positive neighborhoods of curves	333–351
J. M. Conde-Alonso , BMO from dyadic BMO for nonhomogeneous measures	353–372
