

VOLUME 28 NO.2 2002-03

REAL ANALYSIS EXCHANGE

CONTENTS

| | |
|---|-----|
| EDITORIAL MESSAGE | 265 |
| CONTRIBUTIONS | 267 |
| RESEARCH ARTICLES | |
| Józef Myjak and Ryszard Rudnicki | |
| Typical Properties of Correlation Dimension | 269 |
| Hongjian Shi | |
| A Type of Path Derivative | 279 |
| A. Nekvinda and L. Zajíček | |
| Gâteaux Differentiability of Lipschitz Functions via Directional Derivatives | 287 |
| Eva Matoušková | |
| Bilipschitz Mappings of Nets | 321 |
| Jiří Spurný | |
| Representation of Abstract Affine Functions | 337 |
| Tamás Mátrai | |
| Difference Functions of Periodic L_p Functions | 355 |
| Zbigniew Grande | |
| An Example of a Darboux Function Having No Fixed Points | 375 |
| B. Bongioanni, L. Forzani and E. Harboure | |
| Weak Type and Restricted Weak Type (p, p) Operators in Orlicz Spaces | 381 |
| R. Supper | |
| Bloch and Gap Subharmonic Functions | 395 |
| Stewart Baldwin | |
| The Marczewski Hull Property and Complete Boolean Algebras | 415 |
| Paulina Szczuka | |
| Maximal Classes for the Family of Strong Świątkowski Functions | 429 |
| G. G. Oniani | |
| On the Non-Compactness of Maximal Operators | 439 |
| Gady Kozma and Ferencz Oravecz | |
| On the Gaps between Zeros of Trigonometric Polynomials | 447 |
| Ondřej Zindulka | |
| Small Opaque Sets | 455 |
| Harvey Rosen | |
| Darboux Symmetrically Continuous Functions | 471 |
| Saharon Shelah | |
| Martin's Axiom and Maximal Orthogonal Families | 477 |
| Tomasz Natkaniec | |
| The \mathcal{I} -Almost Constant Convergence of Sequences of Real Functions | 481 |
| Jacek Cichoń and Andrzej Jasiński | |
| A Note on Algebraic Sums of Subsets of the Real Line | 493 |
| J. Cole and L. Olsen | |
| Multifractal Variation Measures and Multifractal Density Theorems | 501 |

INROADS

| | | |
|--|-----|--|
| Vasile Ene | | |
| On the T -integration of Karták and Mařík | 515 | |
| Michael J. Evans and Paul D. Humke | | |
| The Quasicontinuity of Delta-Fine Functions | 543 | |
| Supriya Pal, D. K. Ganguly and Lee Peng Yee | | |
| The Fundamental Theorem of Calculus for GR_k -Type Integrals | 549 | |
| Joanna Kucner and Ryszard J. Pawlak | | |
| On Local Characterization of the Strong Świątkowski Property for a Function $f : [a, b] \rightarrow \mathbb{R}$ | 563 | |
| Zbigniew Grande | | |
| Extending Some Functions to Functions Satisfying Condition (\mathcal{A}_3) | 573 | |
| Lorna I. Paredes, Lee Peng Yee and Chew Tuan Seng | | |
| Controlled Convergence Theorem for Strong Variational Banach-Valued Multiple Integrals | 579 | |
| Eugen J. Ionascu | | |
| A New Construction of Wavelet Sets | 593 | |
| Z. Ercan | | |
| On the Hahn Decomposition Theorem | 611 | |
| F. S. Cater | | |
| Constructing Nowhere Differentiable Functions From Convex Functions | 617 | |
| Marcin Grande | | |
| On the Sums of Unilaterally Approximately Continuous and Approximate Jump Functions | 623 | |
| Zbigniew Grande | | |
| On a Problem of Leiderman | 631 | |
| Mark L. Roberts | | |
| Determination of Measures | 635 | |
| Michael J. Evans, Paul D. Humke and Richard J. O'Malley | | |
| Consistent Recovery and Polygonal Approximation of Functions | 641 | |
| A. K. Lerner | | |
| On the John-Strömberg Characterization of BMO for Nondoubling Measures | 649 | |
