

EDITORIAL MESSAGES

By Paul D. Humke

Thanks. I'd like to offer particular thanks to our Assistant Editors, Sarah Sprague and Margaret Flint of St. Olaf College, and Michael White of Washington and Lee University for their work with the *Exchange* during this past year. This is Sarah's final year with the *Exchange*; she has worked for us since she was a first year student almost four years ago. After spring graduation, Sarah will take some time away from school and then continue to graduate school next year. Sarah, we will miss you.

Cater Online. We have published the manuscript entitled *Selected Ideas in the Mathematical Career of F. S. Cater* on our website. Please feel free to visit <http://www.stolaf.edu/analysis> and download that paper. The *Exchange* would like to publish more such manuscripts on our website; if you are contemplating an appropriate work, contact me directly concerning its web publication.

Author Class File. Our raex.cls L^AT_EX classfile is used with every paper published in the *Exchange*. This classfile utilizes a format for entering author, title and other information that is particularly convenient for extracting that information for the various databases that list the *Exchange*. An author version of the raex.cls classfile is available at our website: www.stolaf.edu/analysis.

Advertisements. Please note the advertisements at the end of each issue, which may be of interest to *Exchange* readers. Others promote Michigan State University Press publications and therefore help support the production of our journal. If you have written a book, or have an item of interest you wish to publicize in the Journal, please contact the Michigan State University Press Journals Division.

Michigan State University Press. If you are contemplating writing a textbook on a subject in mathematics, or a memoir, please consider using the Michigan State University Press as your publisher. The Press is a non-profit organization affiliated with Michigan State University that offers superior service and much lower costs than commercial publishers, along with complimentary advertising in *Real Analysis Exchange*.

Website. We encourage you to visit our website and invite your feedback regarding the content. The address is:
