ROCKY MOUNTAIN JOURNAL OF MATHEMATICS

Volume 34 Summer 2004 Number 2

CONTENTS

Equivariant Bivariant Cyclic Theory and Equivariant Chern-Connes Character
By Fatima M. Azmi 391

Infinitesimal Neighborhoods of Infinite-Dimensional Complex Projective Spaces
By E. Ballico 413

On Strongly Flat Modules over Integral Domains
By S. Bazzoni and L. Salce 417

Continued Fractions and Restrained Sequences of Möbius Maps
By A.F. Beardon and L. Lorentzen 441

On Infinite Tensor Products of Projective Unitary Representations
By Erik Bédos and Roberto Conti 467

Nondegenerate Ideals in Formal Power Series Rings
By Carles Biviá-Ausina 495

Monads and Bundles on Rational Surfaces
By Nicholas Buchdahl 513

The Rationality of the Moduli Spaces of Bielliptic Curves of Genus Five with More Bielliptic Structures
By G. Casnati 541

Warped Products in Real Space Forms
By Bang-Yen Chen 551

Linear Maps between Banach Algebras Compressing Certain Spectral Functions
By Cui Jianlian and Hou Jinchuan 565

On Associative Superalgebras of Matrices
By S. Dăscălescu, P.D. Jarvis, A.V. Kelarev and C. Năstăsescu 585

Using Elliptic Curves to Produce Quadratic Number Fields of High Three-Rank
By Matt Delong 599

CONTENTS CONTINUED INSIDE

Recurrences for the Partition Function and Its Relatives
By John A. Ewell 619

Transversality Theorems for Harmonic Forms
By Ko Honda 629

A Liouville-Gelfand Equation for k-Hessian Operators
By Jon Jacobsen 665

On the Norm of Idempotents in C^*-Algebras
By J.J. Koliha and V. Rakočević 685

Oscillations of Second-Order Nonlinear Partial Difference Equations
By Shu Tang Liu and Guanrong Chen 699

Two Theta Function Identities and Some Eisenstein Series Identities of Ramanujan
By Zhiguo Liu 713

First-Countability, Sequentiality and Tightness of the Upper Kuratowski Convergence
By Frédéric Mynard 733

The Admissible Disturbance for Discrete Nonlinear Perturbed Controlled Systems
By M. Rachik, M. Lhous and A. Tridane 759

Weak (C_{11}) Modules and Algebraic Topology Type Examples
By Adnan Tercan 783
