

CONTENTS

A characterization of "Heisenberg groups"; when is a particle free? By LARRY BAGGETT	561
Polynomial characteristic functions for $GF(p)$ and irregular primes By L. CARLITZ	583
Enveloping W^* -algebras By JOHN DAUNS	589
Deficiency orders of odd-order differential operators By DON B. HINTON	627
An elementary derivation of the distribution of the maxima of Brownian meander and Brownian excursion By W.D. KAIGH	641
Finite projective dimension under change of rings By PETER KOHN	647
On hyperbolic polynomial with constant coefficients By M. MUNSTER	653
A common fixed point structure By JAMES NELSON, JR.	675
Classes of nonabelian, noncompact, locally compact groups By T.W. PALMER	683
Fixed points of f -contractive maps By SEHIE PARK	743
Some results on the polynomials $L_n^{\alpha,\beta}(x)$ By T.R. PRABHAKAR AND SUMAN REKHA	751
An approach to completely ergodic transformations and a stacking method By RICHARD J. TUREK	755
$\lambda(n, k)$ -convex functions By S. UMAMAHESWARAN	759
Index, Volume 8	765
