CONTENTS

Survey Papers

- A survey of properties of the convex combination of univalent functions
By DOUGLAS MICHAEL CAMPBELL 475
- The development of general differential and general differential-boundary systems
By ALLAN M. KRAAL 493

Research Papers

- Tamely ramified extensions of Henselian fields
By RON BROWN 543
- The complete Padé tables of certain series of simple fractions
By ALBERT EDREI 559
- On a paper of Richman and Walker
By ROBIN KUEBLER AND J.D. REID 585
- Some oscillation criteria for fourth order differential equations
By DAVID LOWELL LOVELADY 593
- On quasi-complete abelian p -groups
By J. DOUGLAS MOORE 601
- On a Crank-Nicholson scheme for nonlinear parabolic equations
By A. REYNOLDS 611
- Riemann's functional equation
By C. RYAVEC 623
- Linear combinations of convex mappings
By H. SILVERMAN 629
- Index, Volume 5 633
