CONTENTS

Integrability of two dimensional quasi-homogeneous polynomial differential systems BY A. ALGABA, C. GARCÍA AND M. REYES	1
On orthogonal chords in normed planes BY JAVIER ALONSO, HORST MARTINI AND ZOKHRAB MUSTAFAEV	23
Normal families and shared sets of meromorphic functions BY JUN-FAN CHEN	37
Finite rank products of Toeplitz operators on the harmonic Bergman space BY BOO RIM CHOE, HYUNGWON KOO AND KYUNGUK NA	45
On finite sums of Laguerre polynomials BY MARK W. COFFEY	79
The Laguerre-Sobolev-type orthogonal polynomials. Holonomic equation and electrostatic interpretation BY HERBERT DUEÑAS AND FRANCISCO MARCELLÁN	95
Numerical measures for two-graphs BY DAVID M. DUNCAN, THOMAS R. HOFFMAN AND JAMES P. SOLAZZO	133
Projective operator spaces, almost periodicity and completely complemented ideals in the Fourier algebra BY BRIAN FORREST	155
Asymptotic distance and its application BY JAROSLAV HANČL, LADISLAV MIŠÍK AND JÁNOS T. TÓTH	177
Filters in ordered Γ -semigroups BY KOSTAQ HILA	189
Generalized cauchy problem for hyperbolic functional differential systems BY ZDZISŁAW KAMONT	205
Commutative group algebras whose quotient rings by nilradicals are generated by idempotents BY HIDEYASU KAWAI AND NOBUHARU ONODA	229

CONTENTS CONTINUED ON LAST PAGE

An identity of the symmetry for the Frobenius-Euler polynomials associated with the Fermionic p -adic invariant q -integrals on \mathbf{Z}_p BY TAEKYUN KIM	239
Sharp oscillation criteria for a class of fourth order nonlinear differential equations BY T. KUSANO, J. MANOJLOVIĆ AND T. TANIGAWA	249
Value distribution of differences of meromorphic functions BY J.K. LANGLEY	275
A characterization of normed spaces among metric spaces BY PETER ŠEMRL	293
Socle finiteness of the local cohomology BY JAN TRLIFAJ AND M. TAMER KOŞAN	299
Maximal ranks and integer points on a family of elliptic curves II BY P.G. WALSH	311
Hardy type estimates for commutators of fractional integrals BY YUESHAN WANG AND YUEXIANG HE	319
Randomly orthogonal factorizations of bipartite graphs BY SIZHONG ZHOU AND JIANCHENG WU	337
