ROCKY MOUNTAIN JOURNAL OF MATHEMATICS

Volume 44 2014 Number 6

CONTENTS

When the comaximal and zero-divisor graphs are ring graphs and outerplanar
By Mojgan Afkhami 1745

Index of maximality and Goss zeta function
By Victor Bautista-Ancona and Javier Diaz-Vargas 1763

Expansions of monomial ideals and multigraded modules
By Shamila Bayati and Jürgen Herzog 1781

Rational linear spaces on hypersurfaces over quasi-algebraically closed fields
By Todd Cochrane, Craig V. Spencer and Hee-Sung Yang 1805

Non-stable K-theory for Leavitt path algebras
By Damon Hay, Marissa Loving, Martin Montgomery, Efren Ruiz and Katherine Todd 1817

New characterizations of minimal cusco maps
By Ľubica Holá and Dušan Holý 1851

On high rank $\pi/3$ and $2\pi/3$-congruent number elliptic curves
By A.S. Janfada, S. Salami, A. Dujella and J.C. Peral 1867

Scaling by 5 on a $\frac{1}{4}$–Cantor measure
By Palle E.T. Jorgensen, Keri A. Kornelson and Karen L. Shuman 1881

Semigroup compactifications of Zappa products
By H.D. Junghenn and P. Milnes 1903

On characterizations of Hopf hypersurfaces in a nonflat complex space form with commuting operators
By In-Bae Kim, Dong Ho Lim and Hyunjung Song 1923

Coefficient inequality for certain p-valent analytic functions
By D. Vamshee Krishna 1941

Topological free entropy dimension for approximately divisible C*-algebras
By Weihua Li and Junhao Shen 1961

CONTENTS CONTINUED ON LAST PAGE

Some generating relations for extended Appell's and Lauricella's hypergeometric functions
Hongmei Liu 1987

Lower bounds of the canonical height on quadratic twists of elliptic curves
By Tadahisa Nara 2009

The complex of non-separating embedded spheres
By Suhas Pandit 2029

A predator-prey system involving five limit cycles
By Eduardo Sáez, Eduardo Stange and Iván Szántó 2057

Metric heights on an Abelian group
By Charles L. Samuels 2075

A remark about twisting Schatten classes
By Jesús Suárez de la Fuente 2093

Index 2103
