

ROCKY MOUNTAIN JOURNAL OF MATHEMATICS

Volume 47

2017

Number 2

CONTENTS

Ideals in cross sectional C^* -algebras of Fell bundles
BY BEATRIZ ABADIE AND FERNANDO ABADIE 351

Application of strong differential superordination to a general
equation
BY R. AGHALARY, P. ARJOMANDINIA AND
A. EBADIAN 383

Signed permutations and the braid group
BY MICHAEL P. ALLOCCA, STEVEN T. DOUGHERTY
AND JENNIFER F. VASQUEZ 391

Augmented generalized happy functions
BY B. BAKER SWART, K.A. BECK, S. CROOK, C. EUBANKS-
TURNER, H.G. GRUNDMAN, M. MEI AND L. ZACK 403

On seminormal subgroups of finite groups
BY A. BALLESTER-BOLINCHES, J.C. BEIDLEMAN, V. PÉREZ-
CALABUIG AND M.F. RAGLAND 419

On torsion free and cotorsion discrete modules
BY EDGAR ENOCHS, J.R. GARCÍA ROZAS, LUIS OYONARTE
AND BLAS TORRECILLAS 429

Invariantly complemented and amenability in Banach algebras
related to locally compact groups
BY ALI GHAFARI AND SOMAYEH AMIRJAN 445

The classification of infinite abelian groups with partial decompo-
sition bases in $L_{\infty\omega}$
BY CAROL JACOBY AND PETER LOTH 463

Asymptotic behavior of solutions for a doubly degenerate parabolic
non-divergence form equation
BY CHUNHUA JIN AND JINGXUE YIN 479

Jordan σ -derivations of prime rings
BY TSIU-KWEN LEE 511

Multiple solutions for Kirchhoff-type problems with critical growth
in \mathbb{R}^N
BY SIHUA LIANG AND JIHUI ZHANG 527

CONTENTS CONTINUED ON LAST PAGE

On the coefficients of triple product L -functions BY GUANGSHI LÜ AND AYYADURAI SANKARANARAYANAN	553
Some existence and uniqueness results for nonlinear fractional partial differential equations BY H.R. MARASI, H. AFSHARI AND C.B. ZHAI	571
Prolongation of symmetric Killing tensors and commuting symmetries of the Laplace operator BY JEAN-PHILIPPE MICHEL, PETR SOMBERG AND JOSEF ŠILHAN	587
Sequentially Cohen-Macaulayness of bigraded modules BY AHAD RAHIMI	621
Variance and the inequality of arithmetic and geometric means BY BURT RODIN	637
R-duality in \mathfrak{g} -frames BY FARKHONDEH TAKHTEH AND AMIR KHOSRAVI	649
On the existence of continuous solutions for nonlinear fourth-order elliptic equations with strongly growing lower-order terms BY MYKHAILO V. VOITOVYCH	667
On nonhomogeneous elliptic problems involving the Hardy potential and critical Sobolev exponent BY JING ZHANG AND SHIWANG MA	687
