

SUT JOURNAL OF MATHEMATICS

Volume 54, Number 1

2018

CONTENTS

Hiroki Ishioka:

On Brauer indecomposability of Scott modules 1

Nakao Hayashi and Pavel I. Naumkin:

Large time asymptotics of solutions for the modified KdV equation with a
fifth order dispersive term 7

Shummin Nakayama:

A hybrid method of three-term conjugate gradient method and memoryless
quasi-Newton method for unconstrained optimization 79

Kiyotaka Iki:

Decomposition of diamond model for square contingency tables with ordered
categories 99
