

CONTENTS

M. I. Pulatova: On some systems of linear operators Connected with arithmetical inversion formulas	165
Shinpei Oka: A generalization of free L-spaces	173
Katsuya Eda: Completions and co-products of Heyting algebras	195
Hisao Kato: Shape fibrations and fiber shape equivalences, I	223
Hisao Kato: Shape fibrations and fiber shape equivalences, II	237
Hisao Kato: Fiber shape categories	247
Yumiko Hironaka: Zeta functions of integral group rings of metacyclic groups	267
Edmondo Bedocchi: Itération contrôlée de la fonction σ	285
Katsuya Mashimo: Degree of the standard isometric minimal immersions of the symmetric spaces of rank one into spheres.....	291
Syôzô Niizeki: On the Cauchy problem for a semi-linear hyperbolic system and its traveling wave-like solutions	299
Makoto Namba: Equivalence problem and automorphism groups of certain compact Riemann surfaces	319
