	Page
Y. KABEYA, E. YANAGIDA AND S. YOTSUTANI, Number of zeros of solutions to singular initial value problems . . . . .	1
F. SATO, Eisenstein series on weakly spherical homogeneous spaces of $GL(n)$ . . . . .	23
X. HE, Almost periodic solutions of a competition system with dominated infinite delays . . . . .	71
A. INOUE, On a construction of the fundamental solution for the free Weyl equation by Hamiltonian path-integral method—an exactly solvable case with “odd variable coefficients” . . . . .	91
T. OKUMA, The pluri-genera of surface singularities . . . . .	119
Y. HAMADA, Une remarque sur le domaine d’existence de la solution du problème de Cauchy pour l’opérateur différentiel à coefficients des fonctions entières . . . . .	133
T. KAJIWARA, The functor of a toric variety with enough invariant effective Cartier divisors . . . . .	139
