S. TANNO, Strongly curvature-preserving transformations of pseudo-Riemannian manifolds	245
T. ŌTSUKI, On parallel hypersurfaces of an elliptic hypersurface of the second order in E^{n+1}	251
Y. ÔGAWA, On C -harmonic forms in a compact Sasakian space	267
N. KAZAMAKI AND T. TSUCHIKURA, Weighted averages of submartingales	297
G. SUNOUCHI, On the convolution algebra of Beurling.....	303
G. SUNOUCHI, Some criteria for the absolute summability of a Fourier series	311
J. HAKEDA AND J. TOMIYAMA, On some extension properties of von Neumann algebras	315
K. SAITÔ, On the preduals of W^* -algebras.....	324
K. SAITÔ, Non-commutative extension of Lusin's theorem	332
K. UCHIDA, Remarks on Grothendieck rings,	341
T. KATO, Duality of cyclic modules	349
K. AZUMA, Weighted sums of certain dependent random variables	357
Y. OHNO, Simply invariant subspaces	368
N. MOCHIZUKI, Correction: Isometry between $H^p(dm)$ and the Hardy class H^p	379
