S. TAKAHASHI, Central limit theorem of trigonometric series	1
K. TSUCHIDA, Operation and co-operation in the general categories	15
K. TAKEDA and Z. TAKEDA, A certain series of multiplicatively orthogonal functions	34
I.J. MADDOX, On absolute Riesz summability factors (II)	60
K. TAKAMATSU, On a decomposition of an almost-analytic vector in a K -space with constant scalar curvature	72
F. UCHIDA, A note on the generalized homology theory	81
A. MORIMOTO, On normal almost contact structure with a regularity	90
O.P. VARSHNEY, On Iyengar's tauberian theorem for Nörlund summability	105
M. TAKESAKI, On the cross-norm of the direct product of C^* -algebras	111
